CONSTRUCTING THE SUBWAY

About the Virginia street Underground Railway Crossing

Excavation work is progressing rapidly on the subway at the Virginia street crossing. S. F. Cupples with a gang of twelve men and two teams is yanking out the dirt in lively fashion.

The subway will be eight feet wide and high in the clear and will be lined with cement. The north entrance will be direct, but the south entrance will be at right angles with Virginia street and will be located in the center of the street, the subway runs to the westward.

Handsome buildings with tur styles will be erected over either entrance. There will be nine steps down, then a four foot level and twelve more steps. The subway will be lighted with incandescents night and day and will be closely watched by the police for the prevention of nuisances and holdups. The engineering difficulties in the way have been solved by the Southern Pacific Company. Piles will be driven and caps laid in order not to interrupt traffic while the concrete arch is being constructed.

It was the general impression that wash boulders and small gravel would be the nature of the ground, but the excavators have found nothing but the finest variety of brick clay and excavation will proceed very rapidly.

The cost of the subway will be \$5000, half of which will be borne by the city and the other half by the railroad company. The latter have the contract and expect to complete the work by January 1st.

The fact that the south entrance is on the company's right of way instead of on the paved street evidently indicates that the Southern Pacific does not contemplate laying any more tracks on that side in the near future.

Two Local Industries That Are Thriving

The Flanigan Warehouse Company is branching out continually, to the mutual benefit of the company and this entire vicinity. This winter many of the ranchers will store their apple crops in this big house, and hold them until prices advance.

Then other commodities, such as honey, potatoes, etc., will undoubtedly be sent in.

The Nevada Meat Co. continues to do a steadily increasing business; although Mr. McCullough, Armour's agent, has been ill for the past ten days and is unable to do his usual energetic soliciting.

Fusion Ticket Makes a Clean Sweep

Complete returns from all precincts except Salt Marsh give Souchereau 1076 as against 1052. This clear majority of 24 for Souchereau should elect him. He can lose almost the entire vote of Salt Marsh and still win. So it is safe to say that Washoe's delegation is solid for fusion.

Full returns including Salt Marsh give Roff 1155, Flanigan 1135. Roff's majority 20

Expensive Machinery

Yesterday The Journal received a piece of machinery that when set up will fill a small sized room. It will be attached to the new Cottrell press recently installed in this office and will cut, paste, fold and trim a twelve-page paper, the probable dimensions of The Journal within the next year. In about a week this intricate piece of machinery will be in running order and the public will be invited to inspect it.

Didn't Leave Them Out

The Ladies of the Maccabees held some kind of a high jinks last night and had plenty of eatables at their gathering. The initials of the order are L. C. T. M., which has been construed by certain masculines to mean, "Leave out the men." The ladies didn't do that last night, for they remembered The Journal force with a liberal supply of delicious provender.

Benefit Social

A dance will be given by the Kindergarten ladies in their hall next Tuesday night. It is for the benefit of the Kindergarten association and it should be well attended. A program will be rendered and an enjoyable time is promised to all who attend.

Popular Everywhere

Governor Sparks was the happiest man in Reno yesterday. He received over one hundred congratulatory telegrams from many States and Territories and from people in all walks of life on account of his sweeping victory Tuesday.

ALL SORTS OF LITTLE JOTS

News Notes of Street and Town Too Brief for Headings

Reno has eleven labor unions.

A son was born Wednesday to the wife of J. W. Gibbons of this city.

A. Hume has resumed his run for Wells-Fargo after ten weeks' illness.

M. W. Smith has accepted the position of assistant night clerk at the Arcade.

Ten large brick warehouse of the Nevada Hardware and Supply Company is nearly completed.

James O'Sullivan yesterday put a force of men at work on his mine in Spanish Spring valley.

Extensive preparations are being made for the teachers' institute to be held in this city week after next.

The Gardnerville Courier displayed commendable enterprise in getting out a special edition containing election returns.

Robert Reiggs is suffering with a badly wrenched knee, the result of being in the railroad wreck at Teals Marsh.

The Gazette does not claim the election of T. K. Hymers, but The Journal concedes it. How's that for liberality in politics?

A daughter was born to the wife of Mr. Chamberlain yesterday. Papa Chamberlain scarcely knows how to answer to his new title.

The streets are hardly in the proper trim for the winter rains. A little work now would be of more value than many times as much later on.

A delirium tremens patient at the county hospital escaped yesterday and came to town in his underclothes. He was taken back to the institution.

The following messages are undelivered at the Western Union Office: W. T. Lane, W. H. Arnhart, R. H. McDowell, Ellis Edwards, H. G. Heffron.

The Desert King and Wedekind mines resumed work yesterday with a full force of eighty men after a two days' close down on account of election.

The Farmers' and Merchants' bank building is being adorned with handsome signs by the Porteous Decorative Co. C. W. Holman is the artist in charge of the work.

Honorable Patrick Foley was evidently out celebrating the election of Sheriff Quirk last night. He telephoned down from Virginia for Major Cummings and Commodore Ecker to come up and help him ratify.

Reno's New Church

The Presbyterians of this city have nearly enough money raised to construct their new church. It will be built in Lake's addition.

MENDACIOUS AND SILLY

Carson News Insults Mr. Flanigan and Libels John Sparks

Any citizen of Reno who pays his good coin, if there are any such, in subscription for the Carson News is merely subsidizing a puerile, silly paper whose manifest mission is to "knock" Reno by originating and publishing lies that are most malicious and foolish. That miserable excuse for a paper exposes its indecency in a manner that would be revolting if it were not simply amusing. In last night's issue that scab labor handbill urged upon Senator Flanigan that he remove his huge industries from this city to Carson, promising him any office that he might aspire to in the future. This insult to Mr. Flanigan's intelligence and good judgment should not pass without comment, although the publishers of that rot are not worthy of any consideration. It was not the unpopularity of Senator Flanigan that caused him defeat. Senator Flanigan is probably the most popular man in the town of Reno today. There is no one but points to him as the most progressive citizen and the leader in all moves for the improvement of the town.

His employees, who number 150, speak of him as a most liberal and kindly man. He is never appealed to in vain for a worthy charity. He has brought hundreds of thousands of dollars to this city within the past year or two and has invested every cent of his own capital in local industries.

If Senator Flanigan had been running on a question of personal merit and popularity there could probably have been no candidate found to have successfully opposed him. He would have run like John Sparks.

What defeated Senator Flanigan was the Stewart issue and that alone. It was Stewart and not Flanigan who was fought. Senator Flanigan knows that. He realizes fully that he, personally, was not defeated at the polls and he has returned to his office with the same old energy and enthusiasm and will labor as unceasingly for the upbuilding of the material resources of this city and State.

The News makes a statement elsewhere in its foul smelling rag that should be called to the attention of John Sparks that he might prosecute that miserable blackmailing rag to the full extent of the law. The News says that the Wedekind mine will be closed down, because there is no mine there.

While there is no one in Reno but knows that the Wedekind is one of the richest mines in the west, it is probable that the dissemination of the News item outside Nevada might result in the depreciation of Mr. Sparks' credit. In his suit for damages against the News he would probably be able to recover thirty cents, the value of the News outfit including its editors.

Both of Them Seem to Be Satisfied

It develops that John Sparks and A. C. Cleveland, who are almost lifelong friends, made a bet on the gubernatorial election, the wager being a blooded bull.

Sparks, of course, bet on his opponent and vice versa. It required a very few hours after the returns were in for Governor Sparks to arrange for the payment of his wager.

Mr. Cleveland was asked yesterday how he came out of the election. "Oh, I came out all right. Sparks has got a good job, but I have one of the finest Hereford bulls in seven States."

Doings of Cattle and Sheep Men

Ralph Meyers came in from Elko yesterday with 27 cars of sheep to be fed here for the winter Frisco market.

Yarmer Johnson, the "terrible Swede," is here in the interests of the firm for which he is buyer, Clayburg & George.

Ed Taaffe is up from the city. When asked for what he was up he replied, "Up for grand larceny."

A Coming Woman

A daughter was born to the wife of Camille Lonkey, Verdi, on election day. The new girl has already shown signs of being strongly in favor of women's rights, and in all probability will be ready to vote when the time comes. Mother and babe are doing splendidly.

Ferrel on the Beat

Night Watchman Nash is quite ill and confined to his bed and will be unable to resume his duties for several weeks. Policeman Ferrel will assume Mr. Nash's duties until he is able to return to work.

Residence District

Harry Ramsey is building a commodious two-story dwelling on Mill street. This street is now one of the coziest home-centers in Reno and every lot contains a beautiful house, from Westfield's clear down to Geo. Wedekind's place.

THE MONEY RECEIVED

President Mitchel Makes Acknowledgment to The Journal

Mr. D. L. Bingham, Manager Nevada State Journal, Dear Sir:

Your favor of October 31st, containing draft for \$114.50, contributed by The Journal and by the citizens of Reno to the assistance of the anthracite mine workers is received.

Secretary Treasurer Wilson will send you a formal receipt for the amount.

Please extend to the citizens of Reno and accept for yourself our thanks for the interest manifested in the cause of the anthracite mine workers, many of whom are not able to resume work on account of the condition of the mines as a result of their long idleness. The contribution received from Reno will be devoted to their maintenance.

Yours truly,
JOHN MITCHELL,
President U. M. W. of A.

A Fair Offer

The Carson News extends a cordial invitation to the defeated Republican candidates of Washoe county to move over to that town. In return it will probably surrender Senator Livingstone and several other good Carsonites who were defeated here last Tuesday. A fair exchange is no robbery.

Government Survey

The surveyors who are working on the Highline canal are at present located close to town. The canal will cross the divide in the neighborhood of the Emma Mine. This great irrigation ditch, if constructed, will irrigate a hundred thousand acres of rich soil in the valleys north of this city. Surveyor T. P. Mack returned from Dayton yesterday.

Late Tim Dempsey Borne to His Rest

The funeral of the late Tim Dempsey took place yesterday afternoon at 3 o'clock in Carson. It was held under the auspices of the Odd Fellows and from their hall, where impressive services were held.

A number of Renoites were present to witness the last sad rites over the remains of one whom all liked and respected. Charles Dreyer and Tom Montague of this city were two of the pay bearers. It was one of the largest funerals in Carson for some time.

AFTER THE KNOCKERS

Warm Article From the Pen of Discoverer of Tonopah

At a recent meeting of the mine owners and prospectors of Tonopah the actual workers, who are developing the camp, the little army of sooners and knockers and grafters, were roasted in unmeasured terms, as they were well deserving of. The following was the sentiment of the meeting. It was sent to The Journal for further publicity:

The meeting of Sunday evening brought about some feelings that I did not suppose existed in so far as peacefully peaceful city—one that has so far outstripped the record of anything in mining history. The whole matter is simply this: That rich mineral zones are apt to outcrop on a very small surface, and in all cases other lands of great value lie near at hand, and often some of the very best mines are brought out by the development of a once barren tract of land. Now, no man will lay out money or labor without owning part or all of these grounds.

The law saying that a vein or lode must be had before locations are valid would have held back many a famous camp, if it had not been that men did locate and search for such values. Now, only one condition exists, and that is that the locations will be made, and that the men who make them are their owners, so far as any title exists, and no one can have any better title than the first locator. As for litigation to settle such matters, it is one of the questions—for not one out of a hundred of the men who make locations is financially able to fight a mining lawsuit. On the other hand, a small syndicate can with no great outlay, and with a few henchmen to look up and start proceedings, leech the life out of any new camp, even Tonopah, the greatest mineral gem on earth today. Therefore, it needs that one-man feeling which tells the locator, I own this camp. The people at large will support my rights and investments with their resources.

Mines that are now not known will later on be the border-jewels of Tonopah. My opinion is that those rights should and must be recognized, or else throw your tools in the bank and christen Tonopah the "One-mine Camp," and not the great camp that it should be. I will call out eleven as good men as I can think of, and have six form a quorum, with the chairman, to act when needed. I will see that peaceful and gentlemanly conduct shall prevail among all brought before that committee. Cold considerations are often of more value than heated ones; if any party or parties are doing wrong, quietly inform them of the fact, and that it will not be tolerated.

Progress and development are the watchwords of all mining camps, and prospectors are the advance guard which brings all the virgin wealth into the world. Grafters and claim-jumpers were never known in a single instance to discover anything but lawsuits and heavy county indebtedness—just what kills any camp, instead of building up just what we all want—prosperity and wealth. Right should win, no matter if its interest has to be promoted by a committee of picked citizens. Greed and other underhand work are the causes of the measures we are taking, and this makes the cause common, and the enemy a common enemy, whom we will contest to the finish.

As per instructions received at Sunday evening's meeting, I have named the following gentlemen to serve as a Committee: L. H. Conley, J. E. C. Williams, Ben Plummer, Sam Forman, C. C. Wells, A. E. Cushman, Isaac McKay, Thos. R. Bannerman, P. E. O'Brien, H. M. Hasbrouck, Frank Everett. I would also suggest that W. J. Harris act as chairman.

Yours respectfully,
J. L. BUTLER,
Discoverer and Locator of Tonopah.

Eighteen men are prosecuting work in the lower tunnel of one of the Blair group of mines at Silver Peak. They are blocking out some bodies of rich ore. The town is reported as being quite lively.

Colonel D. J. Noyes has arrived at Lovelock from New York and tells the Tribune the American Nickel Co. will resume work on its property at Cottonwood, Churchill county, at once. Colonel Noyes estimates there is 15,000 tons of nickel ore in the company's mines which is worth from 50 to 60 cents per pound and represents a total value of \$17,920,000.

W. T. Hook, general manager of the New York & Nevada Company's mines and plants at Ely, Nevada, came in from the west yesterday and, with Judge Thompson, is closing up the deal by which his big company acquires the waters of Murray creek, near Ely, for \$35,000. His company is doing a great deal for the development and promotion of the camp generally, the new smelter to be put in commission at the earliest day possible.—Tribune

On Thursday last a fully anticipated strike of rich ore was made in one of the Ray & O'Brien company's mines in Ray district. A chute of steel galena ore has been opened in the lowest workings, which has been uncovered for about fifty feet. It is forming into a large chimney, characteristic of lead ore bodies. It was about twenty-three inches wide when first encountered, which within the past two days work shows a widening to twenty-eight inches. Assays give results of \$196 value in silver and \$23.90 per ton gold. The percentage of lead is placed at 70.—Bonanza.

ARBITRATION

IN 1886 President Cleveland sent in a special message to Congress recommending that a law be passed establishing a national board of arbitration in connection with the department of labor that would have power to arbitrate difficulties arising between capital and labor that might be submitted to it by the consent of the parties to a labor dispute. He pointed out clearly and cogently the advantages to be derived from a permanent board or commission of that kind, what its moral effects would be, and that even in cases that arose solely within a state over which the board would have jurisdiction, its interposition might be invoked by the legislature or the executive of the State under the constitutional provision which requires the general government to protect each of the States against domestic violence.

"Congress took no action upon the subject and it was dropped mainly for the reason that such a board would have little or no power to enforce its decisions, and that whatever influence it exerted would be chiefly moral, and that it might eventually become an object of contempt through one party or the other refusing to be bound by its judgment.

"Of course the same objections that were advanced then hold good now, should President Roosevelt recommend a similar plan, and yet in the light of the country's experience since 1886 the experiment is still worth a trial. It seems that if such a board was in existence today with the prestige of a dozen years behind it, the labor disputes of the past two years would not have occurred or would have been settled without the serious losses that have been sustained by the public and the parties alike."—Ex.

Effective arbitration can only be secured by the parties concerned. Laws may compel them to submit their cases to an arbitral board, but no such board can compel men to submit to its decree. When men have gone out on strike there is no power to compel them to return to work. They have a right to work or not as they see fit and to undertake to enforce a law that would make workmen, or any other men subservient to the will or judgment of others, would be a mistake with serious consequences.

The Civic Federation is as effective as any board constituted by Congress and yet it proved itself absolutely ineffective in the late coal strike. In order to have arbitration that can enforce its decrees we must have incorporation or registration of labor organizations as in New Zealand and like registration of employers. Corporations retain many of the rights of the individuals that constitute them. A corporation can be no more compelled, than an individual, to employ any particular persons nor to pay the many specified rate of wages. The coal miners advocated arbitration. The operators refused it and only consented because a point had been reached where they feared disastrous results to themselves.

Arbitration ought to be, and without doubt will be, the way of settling labor troubles in the future, but wise men are needed to devise the means by which it can be brought about in an effective manner without impairing the rights of any of the parties to whom it may be applied.

A NEW game called piff-puff is coming into vogue. It is played with a small bellows and a ball like a toy balloon. It should become a popular game with Nevada Republicans.

JUDGE HAWLEY

THE people of this State will continue to have one of the best and most honorable men on the U. S. Circuit Court bench, that has ever graced it. This man is Thomas P. Hawley. The decision of the voters on Tuesday, stated that they desire his service in that capacity instead of the U. S. Senate. It was a wise decision. The Judge has probably more personal friends in the capacity of a jurist than any man who held a like position in this State. The fact that he was defeated in the candidacy for U. S. Senator has not lost him a friend nor drawn from his popularity. Judge takes the matter as only a man of his character can. He does not complain of the result, and has the same hearty hand shake to proffer the men that fought him in an honorable manner.

The people of this section are better pleased with Judge Hawley on the bench than in the halls of the National Legislature, for they know that in one branch of the government they will receive fair trials, honest decisions and equity. This possibly could not be said of a successor, and with this in view, it is hoped that the Judge will continue to wear the ermine until he becomes tired of activity and retires at his own will.—Carson Appeal.

FRANCE is still having trouble over the question of separating church and State. The trouble will continue until the separation is made, and then it will cease, except for a few spasmodical attempts to connect the two institutions again. There is no hope for harmony of any degree, however, as long as religion and politics are mixed.

CALIFORNIA

OUR neighbor across the mountains has made long strides towards political redemption if she has not come quite up to the mark. California's Republican majority of five figures has been reduced to four and with a small left hand figure at that, upon the general State ticket, with an even chance at the present writing of Lane, the Democratic nominee for Governor, pulling through with a plurality of from 1000 to 1200. Two Democratic Congressmen have been elected, an addition of that number over that of the election two years ago. Democrats should, under the circumstances, be well satisfied with the result in the Golden State.

ENCOURAGING PROSPECT

THE result of the elections in the different States is generally favorable to the Democratic cause and most encouraging, in its connection with the Presidential Campaign in 1904. In all of the Republican States the party majorities have fallen off and Rhode Island elects a Democratic Governor, for the first time in more than a third of a century. The Republican majority will be materially lessened in the Lower House of Congress if not entirely overcome. It is evident that the heaven is working and that everything will be proper condition for a successful Democratic National campaign two years hence.

GENERAL NEW promises that the Pacific cables will be made useless by the wireless system, and he promises to send messages from California to Honolulu within a very short time. Everybody but the cable companies wish him well in his enterprise.

SENATOR CLARK'S son states that he was offered two million dollars as a bribe to deliver political control of the State of Montana to Heinze. Influence comes high in Montana, and bribe money seems to be plentiful.—Grass Valley Union.

IF Denmark does not want to sell those islands all we have to do is to wait patiently until the landething changes its complexion. In the meantime the islands will not be permitted to pass into the hands of any other nation.

AMONG other things decided by Nevadans at the last election was that they were opposed to Chinese cheap labor on the sea as well as upon the land.

THE Carson News takes the defeat of its party good naturedly and "cheerfully takes off its hat to the superior force of the party in power."

THE NEWS says it looks as though that even Van Duzer was elected. We should say it did—by about an "even 1500 votes."

John Simpson, Chairman of the Board of Commissioners of Lincoln county, died last Sunday. He was buried Monday and an unfortunate accident happened at the grave. Just as the coffin was about to be lowered the ground on one side of the grave, being soft, gave way. It threw one of the pall-bearers nearly into the grave and the coffin fell to the bottom. It had to be raised and relowered.

TO RECEIVE MORE PAY

Engine Men and Telegraphers Will Get a Raise

Krutzschmitt and Agler of the Southern Pacific Company have been summoned to town and are in conference with Noble, Ingram, Burkhalter and all the other division superintendents of the company west of El Paso and Ogden.

It has practically been decided what answer will be made to the demands for higher wages made by the engineers and firemen. Before informing the men it was deemed desirable to get an opinion from the division superintendents.

Agler and Krutzschmitt are also consulting with the several superintendents about the demands of the telegraph operators for more pay. The company is about ready to give the operators a reply to their demand.

It appears that the average monthly wage of the operators on the Salt Lake division of the company is \$84.95; on the Tucson division, \$85.51. On all the other divisions the pay is so much lower it brings down the average for the whole system to \$77.47; with the exception of the Denver and Rio Grande system, the operators of which average \$83 a month, the average of the Southern Pacific is still higher than that of any road in the country. The Southern Pacific operators want the inequalities of pay on the several divisions removed by making the minimum pay per month over the whole system \$75. It is believed the company's action on the demand will be favorable.

The employees concerned in these negotiations say the best of feeling prevails between them and the officials of the road.

Next Attraction at the Opera House

Mr. Frederick Warde, the great tragedian, when the announcement was made to him that Mr. Herman would become a star under his son's management, he heartily congratulated Mr. Herman on his prospects and wished him the greatest success. I know of no actor so well equipped or so much entitled to become a successful actor. He has served a long apprenticeship as a leading man with Madame Modjeska, Louis James and myself and has won all our admiration for his ability, his sincerity and unfailing earnestness in his professional career.

Such words coming from a man of Frederick Warde's position in the world are invaluable for he is acknowledged to be one of the most thorough and efficient students of the drama in the country.

Mr. Herman carries complete scenic productions of all his plays and has the advantage of one of the greatest supporting companies ever organized for the classic drama, including the distinguished young actor, Price Mackaye.

Mr. Herman and the Warde company will appear here on Friday, November 7th, at McKissick's Opera House, in Henry Guy Carleton's romantic drama, "The Lion's Mouth." On Saturday night Othello will be the bill.

Free Treatments

For the hair and face. Having been in the business for the past fifteen years, and made a special study of this work, I can tell you the cause of hair falling or a lack of growth by simply examining the hair. I guarantee to stop any case of falling hair in three treatments; to positively remove dandruff in one treatment, without soap or water, and also to GROW HAIR ON BALD HEADS.

FACE TREATMENT

Will remove blackheads in from one to two applications, also remove freckles, tan, sunburn, and all impurities, leaving the skin pure and white. All kinds of developing and massage work. SATISFACTION GUARANTEED.

All Treatment Free. Call On Him

YOU CANNOT MAKE A MISTAKE.

Do you want to make some money? Well, then, remember what we say about the lots in the NEW SOUTH SIDE ADDITION TO RENO. The lots are all very large and very cheap. Now is the best time to buy them, for next year they must advance. See Reno Real Estate & Investment Co., Virginia street, Reno.

A Close Vote

Hugh Darrah is a visitor from Willow Point. He was a candidate for State Senator from Humboldt county and does not know yet how the cat jumped at accounts Ed Hardie was leading by six votes with five precincts to hear from.

From Nye County

Belmont and Smoky Valley gave: Cleveland 17, Sparks 23. Van Duzer 28, Farrington 21. Assemblymen—McCabe, Dem. and S., 23, Sinclair, Rep., 20.

Scene of Activity

The stock yards is the busiest spot in the valley these days. Cattle and sheep are being driven thither in great numbers, either to be shipped to distant points or consigned to the slaughter pens of the Nevada Meat Co.

A Deep Shaft

L. F. White leaves this morning for Tonopah where he will officiate as foreman in the Fraction Extension mine. The owners of the property will sink 500 feet at once.

Extensive Development Work
There are forty men employed by the Pacific Consolidated Mining Company at their Pyramid Lake property. This force will be kept at work for the next five months to determine on the tonnage that can be daily extracted from the mine. Then the directors of the company will determine on the manner of working the mine in the future.

If the quantity and grade of the ore in sight at that time will justify it the company will either erect a large smelter on the ground or build a railroad and convey the ore to Reno for treatment. The company is in splendid financial condition and not a share of the stock is on the market, in fact the principal owners have bought up nearly every share that was held locally.

Remain Open

It is said that the order to close all the Reno saloons at midnight has been revoked. Last night the saloons on First street were in full blast, although the night previous they closed up tight as a drum at the stroke of 12. A. S. Grant is up from Livermore, Cal.

Ratify and Jollify

A big ratification meeting is being planned. It will take place in a night or two as soon as definite returns are received on the vote for the two doubtful candidates on the Fusion ticket.

Many New Buildings

Usually the building season is practically over at this time of year, but contractors are having difficulty at present securing enough men for the jobs they have on hand.

Society Meeting

The Optimista Society will meet Saturday, November 8th, at 2 o'clock at the home of Mrs. F. M. Schadler on Mill street. A full attendance is desired.

AETNA MINERAL WATER

(Bottled at Aetna Springs, Napa Co. Cal.)

There are so many kinds of mineral waters on the market, and all claiming to possess healthful properties, that it is difficult for a person to make a choice.

When we consider, however, that AETNA has stood in the front rank for years, has been a favorite in households as well as public resorts, and has been recommended by eminent physicians, who use it themselves and prescribe it for patients, there should be no question in the matter of selection.
